

# Priya Solanki

Front-end Developer

79999-74836 | [priyarajput79999@gmail.com](mailto:priyarajput79999@gmail.com) | [LinkedIn](#) | [GitHub](#)

## SUMMARY

Front-End Developer with 2 years of professional experience (July 2023 - Present) at Bittechno Solutions, specializing in React.js, JavaScript (ES6+), HTML5, CSS3, and modern web frameworks. skilled in building scalable, responsive, and high-performance applications with expertise in REST API integration, React Hooks, State management, UI optimization, and performance tuning. recognized for delivering maintainable code, reusable components, and optimized front-end architectures that enhance user experience and accelerate delivery.

## EXPERIENCE

### React.Js Developer, BitTechno Solutions, India (Remote)

Jul 2023 — Sep 2025

Proactive Front-End Developer with 2+ years of experience in architecting and deploying scalable, responsive web applications. Proven expertise in optimizing performance, integrating secure payment gateways like Razorpay, and building robust, reusable UI components that enhance user experience. Eager to leverage technical skills to deliver high-performance solutions.

## EDUCATION

IPS Academy, Indore, India - Masters in Computer Application (MCA), Computer Application

Aug 2023 — May 2025

Holkar Science College , Indore, India - Bachelor of Science in ComputerScience (B.Sc.- CS),  
Computer Science

Sep 2019 — Apr 2022

## PROJECTS

### EnrollEase

Aug 2024 — Present

- Architected and deployed a fully responsive Single Page Application (SPA) using React.js, guaranteeing cross-browser and cross-device compatibility.
- Engineered reusable and modular React components for course registration forms, course catalog, and payment workflows, improving code reusability, scalability, and maintainability.
- Integrated the Razorpay Payment Gateway, facilitating secure online transactions and real-time payment capture for a seamless user experience.
- Established secure authentication and authorization using route protection in React Router v6, ensuring only authorized users could access payment and course enrollment features.
- Utilized React Hooks (useState, useEffect, useParams,useRef) for efficient state management and form data handling, improving user experience and code readability.
- Optimized performance by applying lazy loading, script splitting, and asynchronous API handling, reducing initial load time by 30% and improving application speed.

### BitTechno Solution website

Jul 2023 — Present

- Contributed to the development of the front-end architecture of the corporate website using React.js, JavaScript (ES6+), HTML5, and CSS3, helping ensure a scalable and maintainable UI.
- Developed over 30 reusable UI components, which accelerated project timelines and ensured a consistent user experience across the application.
- Implemented React Router v6 features, including dynamic, nested, and protected routes, enabling seamless SPA navigation without full-page reloads.
- Enhanced user experience by developing real-time form validation and client-side error handling with custom React Hooks, improving data accuracy and consistency across the application.
- Architected a global state management pattern (using Context API) to share data like user login status and theme across component
- Streamlined the front-end architecture, leading to a 10% decrease in code complexity and a more maintainable codebase.

## SKILLS

Languages	: JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries	: React.js, React Router v6, Bootstrap, Axios
APIs & Integrations	: REST APIs, Razorpay Payment Gateway
Tools & Environments	: Git, Github, Chrome DevTools, VS Code
React & Hooks	: useState, useEffect, useRef, useParams
